The Challenge of Change

Call for Papers

About the Conference

- The Chemical Engineering Department, Universiti Teknologi PETRONAS (UTP) is pleased to announce the International Conference on Process Engineering and Advanced Materials (ICPEAM2018) to be held in Kuala Lumpur, Malaysia, from 13 - 14 August 2018. This is the 5th in the series of conferences organised under the umbrella of World Engineering, Science and Technology Congress (ESTCON), Universiti Teknologi PETRONAS, since 2010.
- The overarching objective of the conference is to spark a broader discussion on the opportunity and challenges of current technological innovation towards Industrial Revolution 4.0 (IR 4.0). The IR 4.0 entails the integration of digital, physical and biological systems and it is evolving at an exponential rate. This revolution is disrupting all disciplines and industries, thus driving a new wave of innovation in system engineering, process optimisation, advanced materials and thriving sustainability. ICPEAM2018 will serve as an intersection of industrial expertise, engineers, scientists, academics and scholars to disseminate the latest findings from their areas of expertise that embrace "The Challenge of Change" towards IR 4.0.

Conference Topics

- Advanced Materials
- Advanced Process Control
- Bioprocess & Biotechnology
- Oil & Gas and Petrochemical Technology
- Process Modeling & Simulation
- Process Systems Engineering & Optimisation
- Process Safety
- Smart Energy
- Sustainable Environment

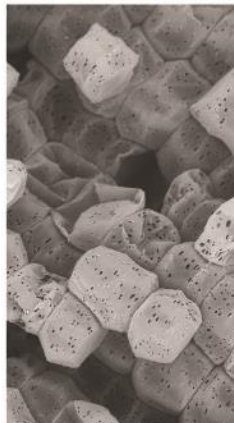

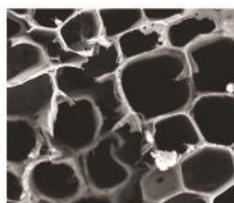

Full Paper Submission & Publications

- The conference includes a technical programme consisting of several invited papers on current and important issues from well-known leaders in the selected fields. Interested participants are invited to submit their full paper through EDAS system at the following link:

<http://edas.info/N24113>

- Accepted papers are organised in parallel tracks of oral and poster presentation sessions. All accepted papers* will be published in reputable SCOPUS or ISI indexed journals.

*Subjected to registration and payment
